

## Performance Management & Auditing Toolkit

### manage monitor audit

With BusPlanner<sup>®</sup> *Performance Management* (PM), you can easily update, manage and evaluate fleet performance quickly and efficiently. Your operators and drivers will never be in doubt as to where they stand – their compliance status is readily available

for them to view and update on-line at any time.

BusPlanner<sup>®</sup> *PM* can integrate directly with BusPlanner<sup>®</sup> *Pro* and BusPlanner<sup>®</sup> *Web* providing a single, seamless environment. This is advantageous when using your existing contract data from your transportation database to evaluate your operators.

#### **BusPlanner<sup>®</sup> *PM* helps you:**

- Evaluate bus driver performance
- Meet and report on fleet compliance
- Centrally store all contracts
- Reduce manual processing time

## Secure and Protected >

Just like in BusPlanner® *Web*, operators and transportation staff have their own accounts and are granted access to read and update the information that applies to them.

## Helping You Save Time >

With BusPlanner® *PM*, there is no need to keep manually compiling records in paper format. Your staff and operators can access necessary information from a convenient on-line portal. The result is a solution that saves time for you and your operators.

## Evaluate Performance >

Don't wait days or weeks to manually evaluate your operator's performance. Do it right away with the online audit option that scores your contractor's compliance quickly and efficiently.

## How Does It Work?

**BusPlanner® *PM*** is an Operator Performance Management Facility that helps you track, evaluate and audit how your bus operators are performing, relative to the requirements within their contracts. BusPlanner® *PM* allows you to monitor operator performance effectively and efficiently all within a secure and user friendly portal and as part of your BusPlanner® *Suite*.
